BURKE'S GREATEST FEAR.

What is the greatest fear of the Rev. A. C. Wilson, pastor of the St. Mark's Methodist church, Belleville, is the fact that he is a member of the congregation who is called to the pulpit. He is a member of the congregation who is called to the pulpit. He is a member of the congregation who is called to the pulpit.

Rev. Mr. Wilson took for his text the first verse of the 14th chapter of John. Let not your hearts be troubled; ye know I have said, I believe also in me.

In my Father's house are many mansions, as I have said, I believe also in me. I tell you, I have said, I believe also in me. I tell you, I have said, I believe also in me.

These passages, Rev. Mr. Wilson said, were selected at the request of the hands of the deceased. They were found marked in his Bible—marked because they were a great source of consolation to him.

Mr. Wilson's chief characteristic was sympathy for the mourning and sorrowing, hence the extracts. The reverend gentleman then gave a clear and beautiful exposition of the text, urging Christians to let not their hearts be troubled by the sorrows and cares of life.

There was a consolation in Christ's usage. He would go to the mourner, and would come again and take to him. He would go to the mourner, and would come again and take to him.

TRACING LOST LUMBER.

Secretary Wilson suspects that it is being smuggled into the U. S. from Canada. New York, Aug. 12.—Secretary of the Treasury, William Windham, has ordered that the lumber yard of the Ottawa & Lake Huron Lumber Co., still in Canada, be investigated as to whether it is smuggling lumber into the United States.

This order was issued in consequence of a report of a small quantity of lumber having been found in the Ottawa & Lake Huron Lumber Co. yard. The investigation was reported privately to the Treasury.

It was learned yesterday that the special agent had been unable to find any trace of the 2,000 tons of lumber. The investigation was reported privately to the Treasury.

CRANK D. GRAHAM.
Takes Another Trip Through the Rapids Below the Cataract.
NIAGARA FALLS, Ont., A. G. 23.—Another trip through the rapids and whirlpools was made today by Crank D. Graham. Graham in his birch bark boat was towed into the middle of the stream opposite the old Maid of Scotland landing and from there allowed to drift down the rapids.
The trip through the rapids was very interesting. At the whirlpool over, instead of going down and running into the rapids, he went up to the rapids and across this basin.
No news of Graham's fate in the rapids has yet been received. He is smaller than any writ with the force over previously been attempted. I am 1 foot long, 22 inches in diameter at the widest part and the hole is 12 inches in diameter at the bottom. It is bound with 15 to 20 hoops, and entrance is gained through by 10-inch manhole in the top. The

FINISHED AT LAST.

EX-GOV. FOSTER TELLS ABOUT OPENING THE SIOUX RESERVATION.

How the Indians Will be Affected by the Change Character of the Land—A Trip to the Reservation.

In an interview with a Chicago Tribune reporter at St. Paul, Minn., Mr. Foster said:

"As soon as President Harrison declared the territory ceded by the Indians to the whites, and as for the Indians, the result will be that the Indians will be materially and educationally, as the proceeds of the sale of the ceded lands are to be held in trust by the government and the interest expended for the benefit of the Indians."

"When will the President's declaration be made?"

"Not until next week, but it will be made at that time."

"Is the ceded country such as to attract American settlers?"

"The greater part of it, especially in the north, is excellent grazing land, and it is well adapted to agriculture, keeping the cattle and horses in the hands of the Indians."

"The land would be good for farming purposes if it were not for the fact that the Indians are so numerous that they would be unable to cultivate it."

Poster smiled at the word "bargain"—the matter with some individuals, and that they were not to be put off by the word. As soon as the chief agent of the reservation was told of this, he was a tremendous work. He had to obtain the signatures of the Indians, and all the males were to be of an age of at least 21 years of age.

"You feel that the act of Congress is also a part of the act of the government on the rights of the Indians?"

"Certainly so," Mr. Foster answered. "This has been my first experience with the Indians. But it has convinced me that their salvation depends on the destruction of their tribal mode of life and the substitution of the mode of life of the whites."

"The good old days, there will be no more of them. The Indians will be materially and educationally, as the proceeds of the sale of the ceded lands are to be held in trust by the government and the interest expended for the benefit of the Indians."
